PRICE FIVE CENTS

APEX OF V IS WARSAW IN BATTLE FIGURE

Capital of Poland Is Apex of V, the Arms of Which are Said to Be Contracting Upon the Russians.

BRITISH AND FRENCH
TAKE WESTERN TRENCHES

Operations in the East Are Still Most Important; Germans Said to Be Progressing Without Delay to the East.

LONDON, Aug. 9.—While the Austro-German armies made fresh progress in the campaign against the Russians the conflict on the western front took on a new aspect. Sir John French, commander of the British expeditionary force, reported a fierce artillery engagement in which British and French troops captured trenches at Hoogle along a front of twelve hundred yards.

The occupation of Praga, reported by Berlin, brings to a dramatic climax the first phase of the drive at the Polish capital, and the region of eastern Poland of which Warsaw is the dominating center. Praga is essentially part of the capital with great railway stations on the roads running to Petrograd and Moscow. But few details were received of Grand Duke Nicholas's final stand at Praga but indications are the withdrawal of the Russians became imperative to escape the German lines gradually drawing together in the rear. The commander of another British submarine, whose name is not disclosed, reports that he distinguished himself by sinking a Turkish battleship Khyber off Jeddah.

Warsaw is now the apex of a vast letter V, the arms of which are the River Narva, on the north, and the Vistula, on the south. The German lines, spread along these rivers, are contracting gradually as the armies in the north and those in the south approach each other.

The strip of territory across which the Russian may withdraw to safer positions, is now hardly thirty miles across. Besides these enveloping movements immediately to the east of Warsaw, Berlin reports steady hammering at the great Russian fortresses of Kovno and Lomza, the chief significance of which is their proximity to the lines of railway communication to Petrograd. Novo Georgievka is the only place west of Warsaw at which a Russian garrison remains, and its fall seems imminent.

The attitude of the Poles toward the new German regime is arousing deep interest as the occupation of Warsaw united for the first time three branches of the Poles hitherto divided among Russia, Germany and Austria.

Under the Russian regime Poland has been a hotbed of discord, and it remains to be seen whether the control of this occupied territory will be as difficult a problem for Germany as it has been for Russia.

The official report from Berlin characterized the operations around Hoogle as a "battle" but Sir John French's later report shows them to have been another trench fight preceded by severe artillery exchange, resulting in the recovery by the British of nearly a mile of trenches previously taken by the Germans. This served to divert public attention, temporarily, from the magnitude of the German success in the eastern field but the operations in the west still lack general significance.

COMPROMISE DIVORCE SUIT

LOS ANGELES, Aug. 9.—Attorneys on both sides told Judge Woods a compromise was reached in the divorce case whereby Edward M. Keatling, son of the so-called "Nitrate King" of Chile, will drop his appeal from the decision of Judge George E. Church, of Fresno County, who granted Mrs. Hazel Keatling a divorce and \$50,000 alimony, in 1912. Keatling asked Mrs. Church influenced her husband's views. In return for dropping the appeal the alimony was cut to \$24,000 and the decree of separation entered only on the grounds of desertion.

TAX RATE RAISED

PHOENIX, Aug. 9.—The final figure of valuation for the state, as fixed following the adjournment of the State Board of Equalization, totals \$420,537,411.90.

Cochise is the richest county with \$101,146,850.82. The tax levy for state purposes was fixed at fifty-four cents as against forty-four and one-half for 1914.

FINDS TELEPHONE IMPORTANT IN WAR

Lieut. Col. George C. Squier.

Lieut. Col. George C. Squier, former assistant chief signal officer of the U. S. army, has been abroad as an observer for the army, and has made observations of the work of the trench telephones and wires from points of observation to masked guns. He reports that the field telephone, thought to have been rendered almost unnecessary by the field radio, has again become of almost paramount importance through developments of trench warfare.

DOLING CASE IS IN HANDS OF THE JURY

No Agreement Is Expected of Jury; Next Criminal Work Will Be Taken up Later in Month With Two Murder Cases.

TOMBSTONE, Aug. 9.—(Special)—The Doling case, which has been occupying the attention of the superior court for the past twelve days, was finally given to the jury at a late hour this afternoon after another day's delay. The testimony was concluded about 10:30 this morning and the argument commenced by Attorney Barium, of Phoenix, for the prosecution, who was followed by Deputy County Attorney Stevenson, W. B. Cleary, for the defense, followed and the closing argument was made by Attorney Fred Sutter, of Bisbee. The jury had failed to reach a verdict up to a late hour tonight and it was expected that it will be before morning. The general impression about town is that the jury will not agree.

The Doling case concludes the trial of criminal cases until the latter part of the month when a clean-up of the remaining cases will be made, among which are the Faust and Olds murder cases.

Special Verdict.

The following reported to the court this morning as members of the special venire as ordered by the court: E. Olson, Bisbee; Beverly Blunt, Bisbee; Archie Wilson, Wilcox; R. E. Clayborne, Douglas; James Baker, Bisbee; A. R. Barough, Bisbee; Louis Burges, Lowell; G. M. Roark, Douglas; W. J. Gise, Douglas; A. C. Prescott, Douglas; J. M. Callahan, Bisbee and James Barrett, Douglas.

Divorce Actions.

The past week there were five actions for divorce filed in the superior court by parties from Bisbee and Douglas who wish to have the court dissolve the bonds of matrimony that are at present holding them. They are entitled as follows:

W. C. Davis vs. Anabelle Davis, Bertha L. Criswell vs. Paul V. Criswell, L. W. Dart vs. Mattie A. Dart, Benjamin M. Kozan vs. Mary E. Kozan, Minnie Munda vs. Frank Munda.

Actions for Debt.

The records of the clerk's office for the past week show that it was an unusual one in the matter of filing actions for debt, there being no less than ten, as follows:

BIGGEST CROP IN HISTORY PREDICTED

Better Conditions All Over the Country Are Seen From Estimates Made up on August 1 By Department Officials.

WHEAT CROP TO BE CLOSE TO BILLION

Increase in Corn, Wheat, Rye, Oats, and Potatoes as Result of Increase in Acreage Planted By Farmers.

WASHINGTON, Aug. 9.—Three billion bushels of corn, a billion and a half bushels of oats and a billion bushels of wheat are in prospect in this year's American harvest. Record crops of rye, wheat, sweet potatoes, tobacco, rice and hay are also predicted for the prosperous farmers who planted 300,546,000 acres or 10,000,000 acres more than last year to principal products. The wheat crop is the greatest ever grown in any country and will be worth more than a billion, while the corn crops value may reach two and one-half billion.

The estimates on the principal crops, announced by the Department of Agriculture, are based on conditions of August 1. They show all crops to be greater than last year. Interest is centered in wheat and corn. Both showed improvement over the July conditions though excessive rains and cold weather in the central states interfered with threshing. Oats also suffered in three states but in other sections improvements more than offset this.

Corn prospects increased more almost one hundred million bushels, the principal gains being in Illinois, thirty million bushels; Kansas, twenty-four million; Oklahoma, twenty-five million; Nebraska, fifteen million; Iowa, fourteen million and Texas, ten million.

Kansas showed a loss of twelve million bushels in winter wheat; Oklahoma, six million; Nebraska, four million; and Missouri, three million, while Ohio and Indiana showed an increase of three million bushels each. White potatoes promise to exceed the former record production by one hundred and three million bushels and sweet potatoes by four million bushels.

FRICTION IN COMMISSION.

CHICAGO, Aug. 9.—Friction developed in the session of the Federal Commission on Industrial Relations which is attempting to adopt a report after two years investigation.

The members of the commission said the greatest source of disagreement is occasioned by the consideration of the Rockefeller interests on which it was said, there might be three reports. Members of the commission attempted to compose their differences in executive session but it is admitted a wide divergence of views existed.

Prof. John Commons, of the University of Wisconsin, prepared a lengthy report in which Mrs. J. Borden Harriman concurred. Commissioner Harris Weinstein had another report while Basil Manly had a third in which it is reported the greatest number of members of the commission concurred.

MEAT HIGH IN LONDON.

LONDON, Aug. 9.—Great increases in the price of meat disclosed in the report of the superintendent of the London Central Market issued tonight. He states the supply of meats of all kinds for July at the market totaled 24,702 tons, as compared with 35,833 tons in July, 1914. The price of fresh beef increased 45 per cent while that of frozen beef increased 74 per cent. Fresh mutton increased thirteen per cent and frozen mutton fifty per cent.

TWO MORE VICTIMS.

ERIE, Aug. 9.—The victims of two more victims of the flood Tuesday were recovered, bringing up the total of known dead to thirty. Nine are still missing. A government engineer has been ordered to assist the local officials regarding the repetition of another flood.

Ren. Bowie Bank and Trust Co. vs. W. A. Wheeler. Bowie Bank and Trust Co. vs. Ray Wheeler. Bowie Bank and Trust Co. vs. Claude Wheeler et al.

There were also two actions filed for debt in which attachment were issued and no return has been made on the writ.

Belgians Adopt Khaki Uniforms

Now Wear More Serviceable and More Business-Like Colors to Fight in.

DUNKIRK, France, Aug. 9.—The Belgian army is now clothed in khaki instead of the dark colored and conspicuous uniform of the earlier months of the war. It has been a popular change, since the khaki of the British soldier has been much admired in a military sense and more business like than their own dark blue and green.

The sanitary situation along the Belgian front is excellent, and the sick report is exceedingly small. The bodies of dead horses and men floating in the area covered by water have been fished out and destroyed, and the country in general cleaned up back of the lines.

Belgian officers have established little chicken yards back of the trenches for fresh eggs, and angling for carp in the canals is one of recreation.

Wilhelm Opens Godfather Gate

Emperor Raises Restrictions and Is Godfather to Every Seventh Son.

BERLIN, Aug. 9.—The Emperor Wilhelm is probably godfather to more boys than any other person on earth, but he is so well able to stand up under the strain that he has issued an order that presently will increase the number of his proteges. The rule formerly has been that he would assume the responsibility of being godfather to a seventh son born to any family provided the boy was seventh son by one and the same marriage. Under this ruling many seventh sons have had to do without the honor, because the mother had been twice married. The Emperor now has modified the rule and announced that he will become godfather to any seventh son, regardless of the number of marriages the mother has contracted, provided all seven boys are living.

Turks Adopting Germanic Plays

German Theatre Started in Constantinople; People Enthusiastic Over Goethe.

CONSTANTINOPLE, Aug. 9.—A German theatre has just been opened here, and bids fair to be as popular as any Turkish house. A caste of Turkish actors, under German leadership, is engaged in mastering and presenting classical German plays, as well as a number of comedies, in the Turkish language.

Parts of "Faust," "Schiller's," "The Robbers," and "William Tell," as well as an excellent translation of Goethe's "Egmont," have been successfully given thus far. Heretofore the modern Turkish theaters have presented, almost exclusively, French drama, and with small success. The great tide of pro-German feeling in Constantinople at present is materially aiding the new adventure.

AGREEMENT IS VIRTUALLY REACHED ON MEXICO

It Is Expected That the End of the Week Will Witness Adoption By Pan-America of Proposals on Mexican Problem.

C. P. CLARK INJURED FROM AEROPLANE FALL

General Scott in El Paso Where He Will Hold Conference With Villa Today; General Met Mining Men Yesterday.

WASHINGTON, Aug. 9.—The powers of North and South America will have already agreed to a definite plan for dealing with the Mexican situation when the Pan-American conference is resumed in New York Wednesday and it is expected to be formally ratified. This came from Lansing who thought he would not discuss the details, said he was decidedly encouraged over the prospect. There has been talk of joint armed intervention by the powers, represented at the conference to quiet any leaders who insist on remaining in the field with military forces.

Administration officials are somewhat perturbed over the official announcement that the Guatemalan minister was ordered from Mexico by Carranza, and that reports of friction preceded the Brazilian minister's determination to leave Mexico at this time.

Senor Cardoso, the Brazilian minister, is coming to the United States to confer with Dr. Gamba, the Brazilian minister, who was one of the Mexican conference. He will travel from Veracruz to New Orleans on an American steamer which will also bring Minister Ortega of Guatemala.

Lansing said he had no knowledge of the Brazilian minister's reason for leaving Mexico nor his intended visit to the United States except he had heard the minister's health was poor. Authoritative information was received from diplomatic sources, however, to the effect that Carranza and Cardoso have not been friendly for some time, and that it was necessary for the latter to leave to prevent an open breach.

C. A. Douglas, Carranza's counsel here, admitted there were differences between Carranza and Cardoso but declared he does not believe Carranza contemplated any action against the minister. American interests in Mexico City, Lansing said, will probably remain in a "state of quarantine" after Cardoso's departure. C. H. Parker, an American attached to the Brazilian legation, was directed to take charge of the United States archives although he has no official status.

SISBEE MAN INJURED

NOGALES, Aug. 9.—A vigilance committee was formed among ranchers on the American side of the border in the San Rafael valley, twenty-five miles east of here, to maintain a day and night guard over stock against raids of Mexican soldiers.

During the past week five hundred head of cattle and horses have been driven into Mexican territory. Ranchers are also appealed for protection to the United States cavalry along the border. The delay of repairing railroad bridges is said to be delaying the attack of Calles on Nogales, Sonora.

C. P. Clark and J. King, American aviators in the Villa garrison, were severely injured when an aeroplane they were testing, fell.

SCOTT IN EL PASO

EL PASO, Aug. 9.—Major-General Scott, Chief of Staff of the army, bearing a special commission from the State Department to Villa, arrived here today, among other callers, a committee of mining men and made a brief visit to Villa at Juarez. He was accompanied by his aide, Lieut. Col. Michie, and George Carruthers, special agent of the State Department. After his return from Juarez, Michie explained the visit to Villa was merely an exchange of greetings and was no part of the official conference that will begin tomorrow.

General Scott was not on his arrival here by Col. Bundy, acting brigade commander, Carruthers and Felix Summerfield, the New York representative of the Villa government committee and officers sent by Villa.

BIGGER AND BETTER ARMY AND NAVY, ADMINISTRATION'S PLAN

Secretary of Navy Daniels (arrow) and his advisory council; Army Chief of Staff Hugh L. Scott (left), President Wilson and Secretary Garrison.

As the administration is solidly behind the plan for a bigger and better army and navy, and as the Republicans are also friendly to this movement, it would seem that the little army and navy will be put to rest in Congress this year. Among the men who are leading the movement for a stronger military establishment and better national defenses are Secretary of the Navy Daniels and his advisory council; Secretary of War Garrison, General Hugh L. Scott, army chief of staff, and President Wilson.

GOETHALS WILL QUIT CANAL ZONE

Wonder Worker of the United States Army Tenders Resignation as Governor of Canal Zone, Effective November 1.

NEW YORK, Aug. 9.—The date of General George Goethals' resignation as governor of the Panama Canal Zone is designated as November 1, in his formal resignation, sent to Washington, according to an announcement made upon his arrival from Cristobal Colon.

Goethals is surrendering his office because he believes his work at Panama is done and the canal operating satisfactorily. He spent seven years in Panama. Although he will no longer be connected with the canal zone as governor should his resignation be accepted, he said he would retain his commission in the army.

The announcement of the date of resignation is made at the conclusion of the last trip which Goethals expects to make.

"NO CONNECTION WITH MEXICO" M'ADOO

Secretary of Treasury Denies His Mission Has Anything to Do With Financing of Mexico; Conference Has Significance.

NEW YORK, Aug. 9.—Secretary of the Treasury McAdoo, after spending virtually the entire day at the sub-treasury, in the financial district, denied his mission here had been to discuss with bankers plans of financing a new Mexican government.

In view of his conference with Lansing yesterday and the fact that Lansing, on Wednesday, is to meet Pan-American diplomats, the presence of McAdoo has been regarded as having some important bearing on the future of the disturbed republic.

McAdoo, however, said he came here on department business and not to discuss plans for financing Mexico. He would not state the exact nature of his business.

The Mexican situation is being agreed to abide by the choice of the

GOOD REPORTS FROM HAITI ARE HAD

Admiral Caperton Reports That All Indications Point to Speedy Reconstruction of Government in Island.

WASHINGTON, Aug. 9.—Encouraging reports of conditions in Haiti come from Rear Admiral Caperton. With American marines and blue-jackets controlling the principal towns and naval officers administering the customs houses, and the revolutionary leaders giving assurances of co-operation to officials here, there is hope of rapid progress towards restoring a permanent native government.

General Robo, the northern revolutionary, has arrived at Port au Prince and renounced his pretensions to the executive power. He has ordered his soldiers disarmed and sent home. He assured Caperton he would co-operate in efforts to restore order. Robo is a candidate for the presidency, but agreed to abide by the choice of the
